Kind words can never die
Cherished and blessed;
God knows now deep thee lie
Stored in the breast.
Like childhood's simple rhymes
Said o'er a thousand times,
Aye, in all years and climes,
Distant and near.
Kind words can never die,
Saith my philosophy;
Deep in the seal they lie,
God knows how dear.

Childhood can never die.—
Wrecks of the past
Float on the memory
E'en to the last.
Many a happy thing,
Many a daisted spring,
Flow on Time's ceaseless wing,
Far, far away;
Childhood can never die.
Saith my philosophy;
Wrecks of our infancy;
Livacon for ave.

Sweet fancies never die, They leave behind Stored in the mind,-Stored in the mind,—
Some happy thought or dream,
Pure as day's earliest beam,
Kissing the gantle stream,
In the loneglade.
Yet, though these things pass by,
Saith my philosophy. Saith my philosophy, Bright things can never die, E'en though they fade,

Lecture on Dean Swift, A large and enthusiastic audience sembled in Tremont Temple, Monday, to listen to one of T. F. Meagher's entertaining lectures. His subject was, "Jonathan Swift, Dean of St. Patrick : the slanders of Thackeray refuted." Most writers of biographies, Mr. Meagher said, endeavor to present their subjects in the most striking colors; especially is this true of lecturers, whose chief aim appears to be a vivid picturesqueness, to attain which they draw largely upon their pow-ers of fancy, paying but little regard to the true facts of the case.

To this class of writers belongs William Makepeace Thackeray. Thackeray was undoubtedly a brilliant and learned wri ter, but when he attempted to fathom the genius and character of Jonathan Swift, he was evidently out of his depth. The renowned novelist had sketched him as a mere artist, consulting the tastes of those whose patronage paid the beat. He had represented Swift as a melodramatic monster instead of a man. Mr. Meagher trusted it would be his proud achievement to restore the defaced likeness of the

intrepid patriot.

Here followed a short sketch of Swift's early life.

After leaving school, Swift went to reside with the celebrated Sir William Temple, a distant relation, who employed him as a sort of confidential secretary, in which capacity he was highly prized. While with Sir William, Swift took out his degree at Oxford, expecting his rich Notice.

By the death of Queen Anne in 1714, his party was broken up, and receiving the appointment of Dean of St. Patrick, he gladly fied to Ireland.

Here the lecturer stopped to consider what he called one of the foulest of the many foul calumnies which Thackeray has propagated concerning Swift, viz. licentious intercourse with two of his intimate female friends. Mr. Meagher thought Swift never was in love. Nevertheless, his brilliant talants and the foundation of Here the lecturer stopped to consider what he called one of the foulest of the theless, his brilliant talents and sparkling conversation made him a great favorite with the fair sex. His only fault in the present instance consisted in a harmless correspondence with the ladies in ques-

Flinging aside, therefore, this foul slander, Mr. Meagher proceeded to speak the Oi Swift's political life in Ireland. The truly. aspect of things at this time was irritating to every nerve of Swift's honest nature. The nobility was impoverished, trade had declined, and Ireland was passing through its most degrading period. The national bank scheme, which was then broached, was abandoned in consequence of Swift's

Then broke out one of the fiercest agitations of the day. The owner of several large mines had been authorized by the in one English government to coin copper money to the extent of over £100,000 sterling, without even consulting either the Lord
Lieutenant or Privy Council of Ireland.
This measure Swift assailed with all his
powers of sarcasm and invective. He
wrote songs and preached sermons against
it. His powerful sarcasm prevailed; the
Irish Parliament declared the contract
null and void; and Swift was the most
popular man in Ireland. Some people
have sneered at Swift, said Mr. Meagher, popular man in Ireland. Some people have speered at Swift, said Mr. Meagher, for making such a fuss about a few cop pers, but the question was one of far higher importance than mere coppers; it involved the liberty of his country. Fierce-

Pope wrote of him in the highest terms.

As regards the lighter part of Swift's character, he might quote a host of anecdotes, but they were all too familiar to need repetition. His wit was everywhere acknowledged. In conclusion, Swift was the charge of Thackeray that he was

acknowledged. In conclusion, Swift was the man of the Irish people, and the most powerful Irish genius that ever lived. Inlamed with a generous hate of all untruth and injustice, had he been possess ed of official power, he would have used it for the highest objects of the public good.—Boston Messenger.

"I am more than ever of the opinion that no other one medicine socompletely meets the wants of our people as your pills. Last fall, in this region, but one person in m, knowledge escaped the Ague. Many had it all through the winter, and continued to have it this apring. I sold eight bottles, all for the treatment of these almost chronic cases, and, it has given in every case the most perfect satisfaction; and I believe the first tiose has in every instance stopped the disease.—Of these eight cases, permit me to give you the facts with regard to two of them: The first was that of a girl of fifteen years, who had the Ague bailly all last fall—had remattent lever and dumbague nearly all winter; and to this was superadded monthly irregularity. Knowing this, I harelly ventured to recommend the pills as I ague nearly all winter; and to this was super-aided monthly irregularity. Knowing this, I hardly ventured to recommend the pills as I would in ordinary cases, but to my great aston-ishment and gratification the first dose stopped the fever, (remittent) and I supposed the other difficulty has also been removed, as the roses on her before faded checks seem to indicate fine health, which otherwise would hardly be the

The other case is that of a young mar living in the same family. He had the Fever and Ague bad's, all last fall and winter—so he informs me; the first dose of the pills stopped it, and he has not leat an hour from his work since he began to take it. He has been splitting rails, hauling them out, and building fence eve since, and makes a first-rate hand at this laborious business. He now says that ten dollars would be a small price for the benefit, he has received."
